PROFESSIONAL SUMMARY

Self-taught AI consultant and web developer with a growing portfolio of live and in-development products: an AI-powered website security scanner (Paznic), a multi-agent website monitoring system, a published university-review platform (UNIREAL), and a Flutter-based CNC assistant app. Computer Science student at the Technical University of Cluj-Napoca. Currently working full-time as a CNC machine operator and programmer in Romania, while actively building and shipping AI and full-stack projects — looking for opportunities to grow into an AI-focused or junior developer role. Over 15 years of cross-industry experience including sales management, insurance, and team supervision. Reliable, adaptable, and dependable under pressure. Trilingual: Persian (native), English (upper-intermediate), Romanian (intermediate).

WORK EXPERIENCE

CNC Machine Operator & Programmer *Dec 2024 — Present*
COZMIRCOM SA · Baia Mare, Maramureș, Romania

- Operate and program CNC machines for precision manufacturing (3-axis machining, drilling, grinding, milling).
- Set up conventional CNC machines and write/adjust G-code programs for production parts.
- Handle material loading, quality control, and daily production deadlines.

AI Consultant & Junior Web Developer (Part-time) *2024 — Present*
EMAD AI Consultant · Freelance · Romania, remote

- Design and build full-stack AI products for European SMEs, including AI security scanners and multi-agent monitoring systems.
- Work with Next.js, TypeScript, Flutter, Python, PostgreSQL, Supabase, Claude API, and OpenAI API.
- Provide AI adoption guidance to small businesses and individuals, focused on practical, cost-effective solutions.

Insurance Agent & Sales Team Manager *Apr 2016 — Apr 2021*
Insurance Agency · Lahijan, Iran

- Sold commercial, medical, life, and investment-linked insurance products to a diverse client base.
- Managed a health & life insurance sales team; trained members and tracked performance targets.

PROJECTS

Paznic — AI Security Scanner — *TypeScript · SaaS · paznic.eu.* AI-powered website and domain security scanner for businesses — comprehensive checks across security, SSL, DNS, and site health. In final development, currently in market outreach.

Emad Agent Team — Multi-Agent Monitoring — *TypeScript · AI Agents.* Six specialized AI agents (Sentinel, Diagnostician, Medic, Herald, Foreman, Coordinator) that monitor websites 24/7 and send daily, weekly, and monthly reports via Telegram and email. Currently active on unireal.study.

CNC Assist — Mobile App — *Flutter / Dart · PostgreSQL · AI.* Multi-tool CNC app (in development): feed & speed calculator, AI-powered G-code analyzer (incl. from drawings), and knowledge assistant. 4 languages, 3 CNC dialects (Haas, Siemens Sinumerik, ISO).

UNIREAL — University Review Platform — *Full-stack · unireal.study.* Published platform where students search, review, and rate universities worldwide. Actively enriched with new university profiles.

EMAD AI Consultant Website — *Next.js / TypeScript · emadai.dev.* Personal bilingual (EN/RO) consulting website deployed on Vercel.

EDUCATION & SKILLS

B.Sc. Computer Science *(in progress)*
Technical University of Cluj-Napoca
